

# Welcome *Nursery* Parent and Carers

## Term 2

### Topic: Colour and light

We have come back to nursery with a bang! We have had two very busy weeks already here. First week Halloween fun, followed by Bonfire night. The children have enjoyed making potions and dressing up with fancy dress. Then the second week, we have been looking at Diwali and Remembrance Day.

Our number focus is...

Numbers up to three. We have been looking at what numbers to three look like. Can we count to three 1 to 1. Are the children able to spot the numbers around the nursery. The children have shown great progress with their counting and are starting to recognise some numbers.

Our story this term is...

"Brown bear, Brown bear". The children have been reading Brown bear and have enjoyed learning about the different animals in the book. Miss Walley has made a story map and the children have been following the story map to help with the story.

This term we are focusing on PSED. We are looking at turn taking and sharing. We will be playing lots of different games and during circle time we will be using jigsaw genie to help with taking turns when talking.

Home challenge of the week:

This week, we would like you to go out and collect some leaves with your grown-ups. Then discuss all the different colours and shapes you can see.
