

Welcome *Nursery* Parent and Carers

Term 1- Settling in

Topic: Marvellous me!

We have been settling really well into nursery life. We have already experienced so much and have enjoyed exploring and learning new things. Our teachers are really proud of how far we have come and are enjoying getting to know all of us. We have made new friends with our peers and have even met a few of the other children through the gate.

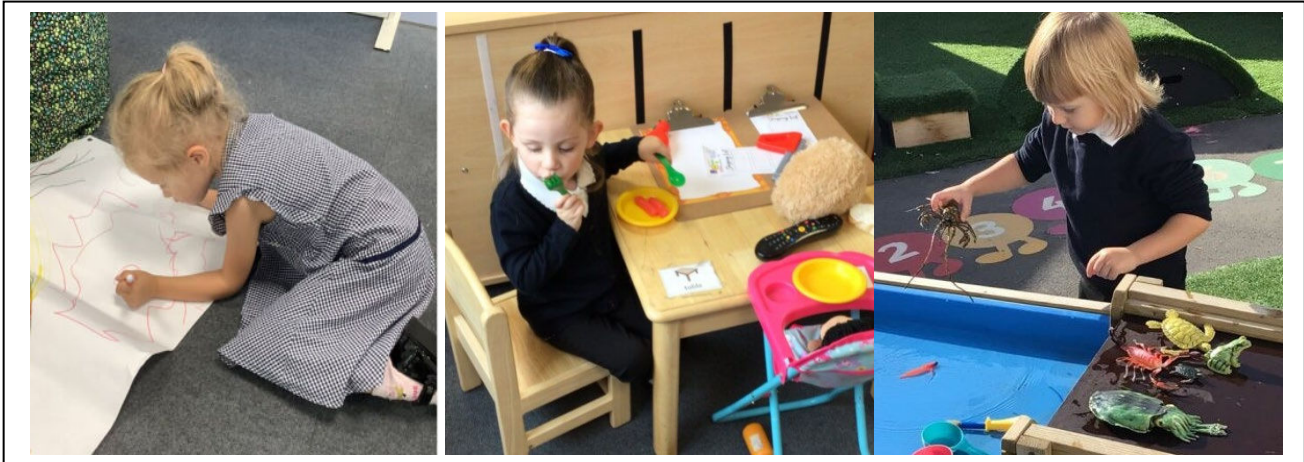

Our number focus is...

Numbers to three. This has been the centre of our attention as we examined their appearance. We have been utilising number blocks to aid us during our carpet times. We have matched cars to their homes using numicon and used counting bears and sang different nursery rhymes.

Our story this term is...

We have been looking at a few different books so far this term, all about our hands and how we can use them in a kind way. We have had a go at painting our own hands to make prints and have looked at how we might use our hands in the class room, such as using them to draw or build towers with.

We have been emphasising "physical development" and "personal, social, and emotional development" during our ongoing provision. We have been concentrating on these crucial topics, and we shall do so throughout this term. To enhance our physical development, we have been strengthening our fine and gross motor abilities and utilising various equipment.

Home challenge of the week:

Due to the wet weather we have been having, it is a prime opportunity for the children to start learning to put their own coats on.

By helping your child at home, this will really aid them with their independence and getting ready by themselves.
