

Key Vocabulary

History
Historian
Past
Present
Bristol
Family tree
Memory
Compare
Sort
Technology
Timeline

What will you need to know?

History is learning about the past.

We live in the city Bristol.

I am part of a family. Who are my family members?

Key events in my life: starting school, sibling being born, nursery, learning to ride my bike, etc.

Year 1, Term 2 How has family life changed?

Want to know more?

Why do we learn about History? How does it help us understand the world we live in now?

What technology has been invented in Bristol in the past?

Find out who invented the camera. Do they look different from the cameras we have today?

What do you know and where could you go?

I know that I live in a home in Bristol and other people have lived here before me.

This term you will learn about your family tree and about how things have changed from the past. We will investigate different artefacts and photos. Do any of your elderly relatives have any interesting artefacts from the past you could look at?

Trip or Visitor Details

Bring in a photo of your family, it could be your close family, or include more distant relatives.

Contact an elderly Bristolian relative and discuss how Bristol has changed.

How do we record memories?

Try these at home:

Look at your family photos from the past. How have things changed?

Use the internet and look at photos from the past of where you live. How has it changed? Is anything the same?

Visit the 'Museum of childhood' online and look at the collection of toys from the past.
