

'Growing'

In building our vocabulary this term we will be learning the name of various minibeasts and be able to identify their features. We will compare different minibeasts and discuss where we might find them and how they move/travel.

Our Jigsaw unit is focussed around friendships and relationships this term. We will identify who our friends are, what makes them our friends and how we can be a good friend. We will also be learning skills for how to cope when we fall out with others or encounter difficulties in our friendships. We will continue to build our turn taking and sharing skills in class.

As the end of the school year begins to approach we will be focussing on building our independence skills. We will be covering putting on our coats, changing, toileting, marking our work with our names and practising basic hygiene.

We will be focussing on lots of exciting new things in our phonics lessons this term. We will be looking at rhyming, alliteration and being able to verbally identify initial sounds through a range of games. As our listening and retention skills continue to grow we will practise retelling simple repetitive stories and start to create some of our very own. Look out for our fortnightly challenges in the blog.

This term we will continue to build our recognition of numbers 1-10 and being able to match numbers to amounts. Additionally we will be focussing on lots of measuring this term including length, weight and height. We will also cover positional language and times of the day we do different activities.

This term we will focus on growth as a topic and will be looking at how plants grow around. We will plant various seeds and explore the greenery within our school grounds. In addition, we have some wriggly caterpillars joining our class this term and we will get to watch as they fatten up, create their cocoons and then transform into butterflies - before setting them free. We will make links back to ourselves and how we grow and change in our lifetimes.
