

Once upon a time

This term we will be developing our independence in writing sentences. We will share the story 'The Billy Goats Gruff' and explore magical creatures. We will develop our problem-solving skills as we explore materials to create bridges, testing and recording our creations and building on prior knowledge in Term 3. We will look at the animation artist Brittany Lee and use our imaginations to design a magical creature bringing them to life using technology.

In the curriculum area **'Understanding The World'** we will develop our history knowledge through fiction and non-fiction stories. We will learn about famous historical figures such as knights, queens and kings.
